

M-CLASS SMART CLASSROOM BOOKING

Real-time University Classroom Discovery &
Reservation System

The Classroom Scheduling Problem

The Problem

Schedule changes disrupt learning every day. Students struggle to find available classrooms when plans shift unexpectedly. Manual coordination between departments wastes valuable time and creates frustration for everyone involved.

These challenges disrupt learning and waste valuable time.

Overcrowded hallways

Double-booked rooms

Last-minute cancellations

Frustrated students & faculty

The Solution: M-Class

Solution

M-Class is a real-time classroom availability system that lets students instantly find and book open rooms.

No more wandering hallways or checking locked doors. With M-Class, students can view live room availability and secure a space in seconds—from any device.

Key Features

Real-Time Room Status

Instant room booking

Automated notifications

University system integration

How It Works

Simple Process

Book in 3 easy steps:

1

Check real-time
classroom availability
across campus.

2

Book your preferred
room instantly with
one tap.

3

Receive instant
confirmation

Benefits That Matter

Benefits

M-Class delivers measurable value to students, staff, and institutions alike.

Save time for students

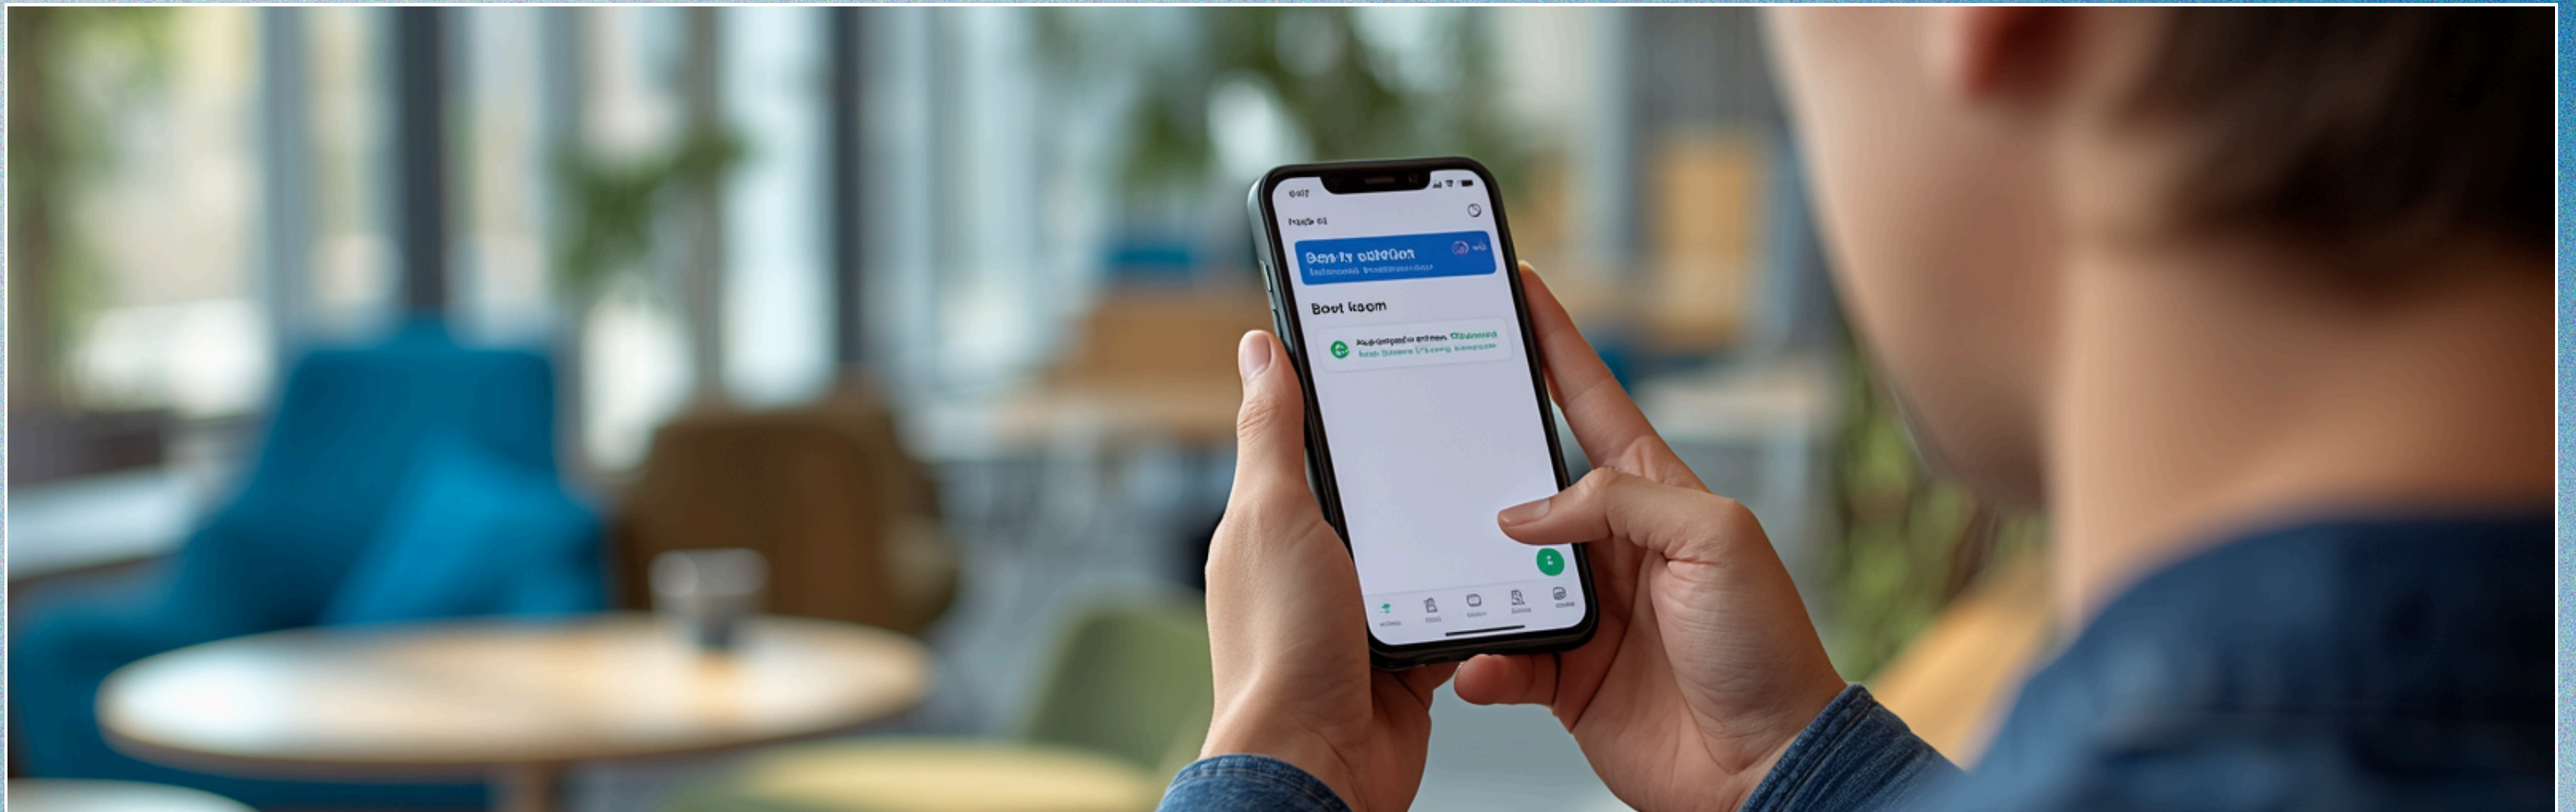

Reduce admin workload

Maximize room utilization

Use Case

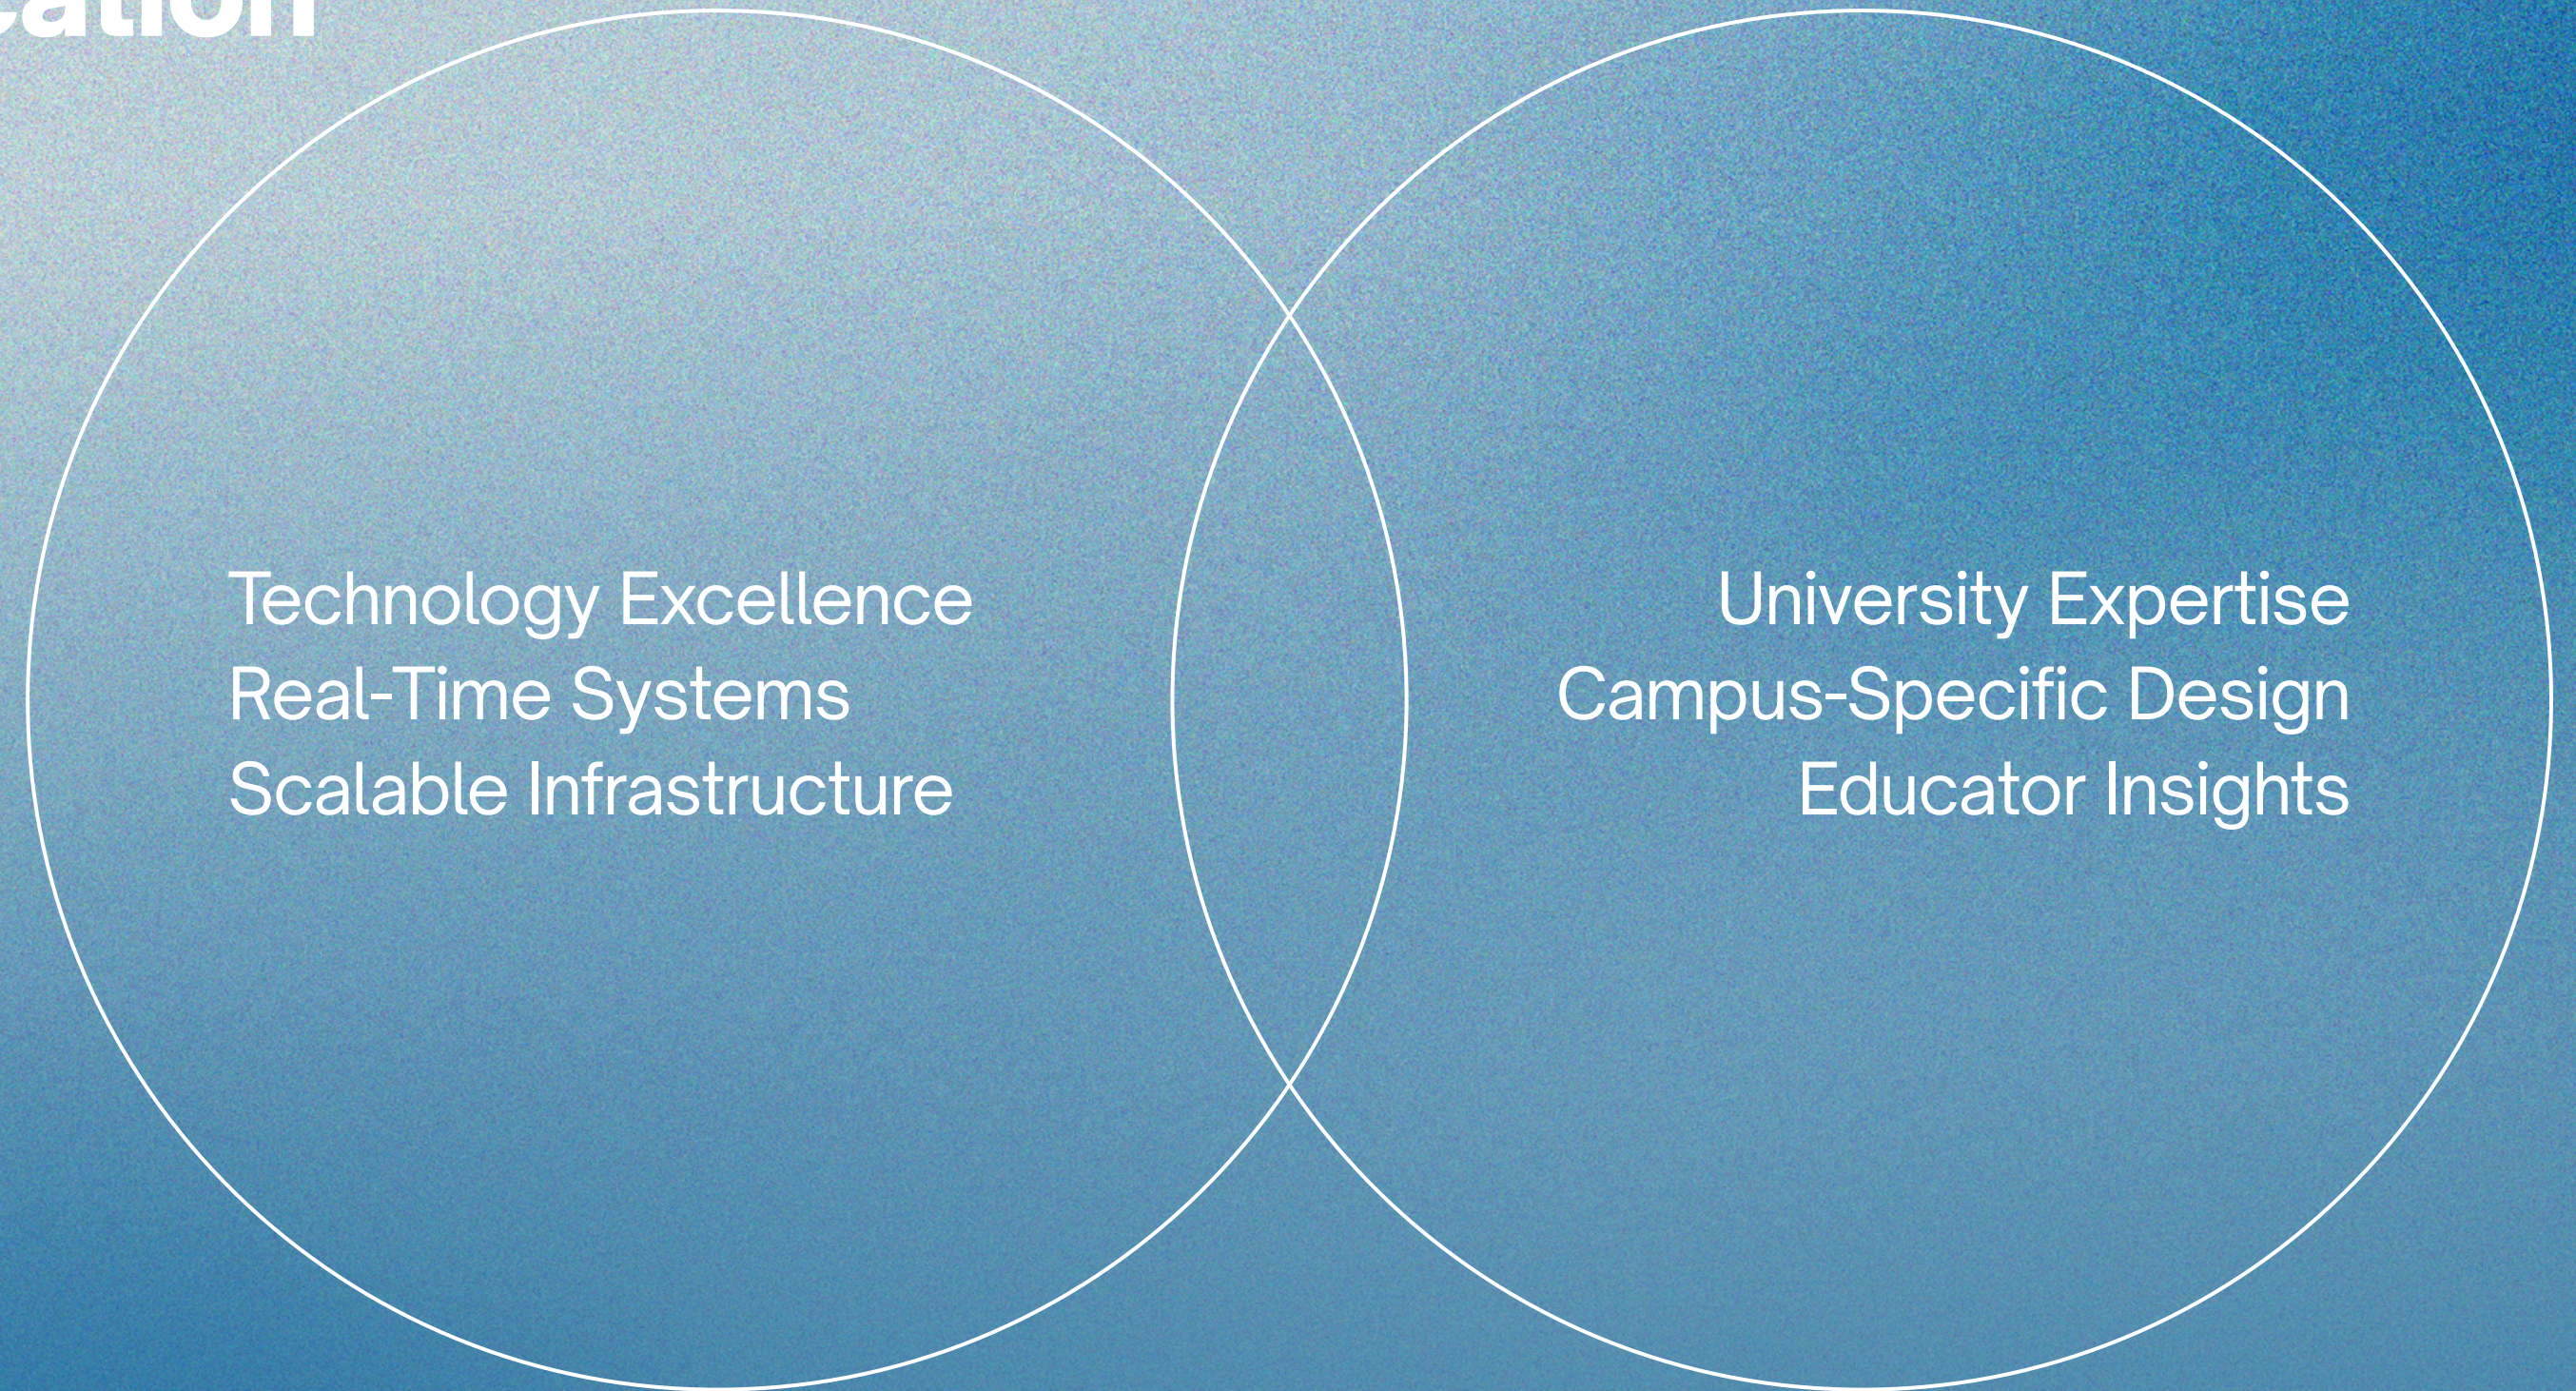

At Polkesma, increasing student numbers create classroom capacity challenges as infrastructure remains limited. M-Class is implemented to optimize classroom allocation and support dynamic scheduling as student demand increases.
